- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). The Company shall present an invoice for Recurring Charges monthly to the Customer, in advance of the month which service is provided, and Recurring charges shall be due and payable within 30 days after the invoice date.

2.11.1 Collection Of Charges

No collection efforts other than the rendering of the bill shall be undertaken until the delinquency date.

When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro-rata basis. For this purpose, every month is considered to have 30 days.

Billing of the Customer by the Company will begin on the Service Commencement Date, which is the first day following the day on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties or if the service or facility does not conform to standards set forth in this tariff or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement, or component is discontinued.

The bill form or a bill insert will provide the following information: the dates at the beginning and end of the billing period; the last date for timely payment shall be clearly shown and shall not be less than twenty (20) days after the bill is rendered; the amount of the net charge, stated by category, directory assistance, taxes and surcharges, and any late payment charge, together with the gross amount of the bill, with separate entries for total amounts current or in arrears. The Company will comply with reasonable requests for bill detail.

2.12 Payment for Service

2.12.1 Late Penalty Charge

Each account will be granted one complete forgiveness of a late payment charge each calendar year. On one monthly bill in each period of eligibility, the net amount of such bill will be accepted as full payment for the month after expiration of the net payment period. The Customer will be notified by mailed written notice that the eligibility has been used. Such forgiveness of late payment charges will have no effect on the credit rating of the Customer.

A late payment charge equal to 1.5 % per month of the past due amount will be assessed for amounts not paid within thirty (30) days from the date of the invoice.

2.12.2 Partial Payment

If a customer makes a partial payment in a timely manner and does not designate the service for which the payment is made, the payment shall first be applied to the undisputed balance for local service, with the remainder applied on a pro rata basis to deregulated and unregulated services other than toll. Any late payment penalty charge will be applied only to the outstanding balance for utility services, except interstate and related taxes.

2.12.3 Taxes and Other Fees

All federal, state and local taxes, assessments, surcharges, or fees, including sales taxes, use taxes, gross receipts taxes, and municipal utilities taxes, are billed as separate line items and are not included in the rates quoted herein.

If an entity other than the Company (e.g., another carrier or supplier) imposes charges on the Company, in addition to its own internal costs, in connection with a service for which the Company's non-recurring charge is specified, those charges will be passed on to the customer.

In any such proceeding, the amount of collection costs, including attorneys' fees, due to the Company, will be determined by the court.

The 45-day period may be extended by up to sixty (60) days if requested of The Company by the Commission in the event that the Customer files a written notice of a dispute with respect to the Company's charges within two (2) years from the later of the date of the bill or the date of the discovery of the dispute, the bill shall be deemed correct and binding upon the Customer.

The records maintained by the Company under this tariff will be available for inspection by the Commission or its staff upon request. 3.9 Toll Free Service

Upon availability, Convergent Standard 800 Service provides Customers with an 800 number using the 1-800-XXX-XXXX format. When switching from their former 800 service provider to Convergent Standard 800 Service, Customers may retain their existing 800 number. If the Customer desires, the Customer may order area code blocking, which permits calls originating from area codes designated by the Customer to be blocked.

3.9.1 Toll Free Routing Features:

- **Message Referral** provides a recording (up to six months) that informs callers that the toll-free number has been disconnected or refers callers to a new toll-free number. This prevents end-user confusion and increases traffic to the new number.
- **Call Area Selection** increases target-marketing capabilities by allowing users to specify from where toll-free calls can be received.
- **Route Completion** provides the capability to reroute dedicated access traffic to predefined alternate routing groups, minimizing revenue loss due to busy lines.
- **Geographic Routing** provides users with the capability to specify multiple points of termination based on the call's origin. Calls originating from a specific region can be routed to a particular location.
- **Call Distributor** allows a customer to spread their incoming traffic evenly over their dedicated access lines in a trunk group. Customers can specify either ascending, descending, most idle, or least idle. Default setting is "most idle."
- **Time of Day Routing** routes calls to a single Toll-Free number based on the time of day (up to forty-eight (48) time slots of 15-minute increments in a 24-hour period).
Day of Week Routing routes calls to a single Toll-Free number based on each day of the week.
Day of Year Routing routes calls to a single Toll-Free number based on up to fifteen (15) customer-specified holidays.
- **Percent Allocation Routing** routes calls for each originating routing group to two (2) or more terminating locations based on a customer-specified percentage.
